EC directive 2002/95/EC (**the Rohs Directive**) restricts the use of hazardous substances listed below in electrical and electronic equipment.

Based on information provided by our vendors together with spot tests ETS does to check for lead content we are confident that since June of 2006 all ETS export product has been lead free, RoHS compliant and does not exceed the maximum limit for the following six designated substances:

Lead	0.1%
Mercury	0.1%
Hexavalent Chromium	0.1%
Polybrominated Biphenyls	0.1%
Polybrominated Diphenyl	0.1%
Ethers	0.1%
Cadmium	0.01%

Energy Transformation Systems has taken all reasonable steps to confirm our suppliers' statements regarding the absence of these restricted substances and maintains a full audit trail of relevant documentation to support this.

Arom Phonphiboun, Director of Quality Control
