PV920DW Series

Component Video Decorator Wall Plate

Features/Advantages

- Decorator wall plates for a sleeker, cleaner professional installation
- Easy installation with punch down blocks
- Ports are color coded for easy identification
- Send Component Video on UTP at distances of up to 600 ft (150 ft. nominal with CAT3 cable)
- Meets FCC Class A
- Superior signal balancing, lower crosstalk, less ingress and ghosting
- May utilize existing telecom wiring
- Made in USA
- 100% tested
- Available in White or Ivory

Description

The ETS PV921DW Component Video Decora Wall Plate has been designed with a new flat circuit board and decorator wall plate giving neater, more professional installations by complementing existing wall plates. For ease of use, all ports are color coded, giving consistent signal labeling for applications utilizing component video signals.

The completely passive PV921DW features goldplated female RCA connectors on a modular Decora faceplate and fits in a standard-depth wall box.

Component video formats include RGB, YUV, YIQ and YCbCr. The PV921DW Decorator Wall Plate is functionally identical to the PV921WP.

YbCr component video is a recent addition to consumer equipment, found on some DVD players, highend televisions, and home theater equipment. Professional uses include cameras and VTRs based upon any of the above standards.

- Applications
- Broadcast Studios
- Production and Postproduction Facilities

DVD/Home Theater

- Video Projection Systems
- Conference Rooms
- Schools
